# Modern uses of steel e-conference

22–24 November 2022

Virtual

Attend this eConference to learn how to use steel in an effective and sustainable way in changing times.

The climate emergency is one of a number of drivers forcing professions across the built environment to consider how to design in an effective and sustainable way, while also delivering good design to the steel structures they design and build.

Registration now open:

[istructe.org/events/hq/2022/using-steel-in-changing-times](http://istructe.org/events/hq/2022/using-steel-in-changing-times)

### Topics will include

- Designing efficiently with steel – design solutions
- Fabrication & execution
- Reuse and refurbishment

### Who should attend?

- Structural engineers
- Designers
- Build and demolition contractors
- Material engineers
